INFORMATION FOR FIRE SUPPRESSION SYSTEM PERMIT

APPLICATION

In general, plans are reviewed "in house". However, some plan reviews will require third party review at the Fire Department's discretion. The Contractor will be responsible for these outside fees along with the Fire Department's Test Fees and an administration fee of 10% of the department's cost. The Contractor will be provided with a rough estimate and will be required to sign off on the estimate prior to the plans being sent for review.

- Permits are required for new install, repairing or replacing any portion of a fire protection system
- Contractors must be licensed by State of Michigan and registered with City of Romulus
- To avoid delays in processing and to avoid revision fees, ensure application is filled out completely and submitted with all required documentation.

REQUIRED DOCUMENTATION

The following documentation will be required from each contractor:

- Completed Application
- Three (3) sets of scaled drawings, signed and sealed by a registered design professional.
- One (1) copy of product specifications or cut sheets for devices used.
- Scope of work to be provided on drawings. Rooms must be labeled or visual device is required.

FEES

Payment is preferred by check, made payable to "City of Romulus". Credit Cards are also accepted.

PLAN REVIEW PROCESSING

- Please allow ten (10) business days for processing
- If there are any deficiencies or insufficient information on the required documentation, the contractor will be contacted and asked to provide missing or additional information.
- Permits are issued upon receipt of payment at Fire Administration, 28777 Eureka Rd Romulus

INSPECTIONS/TESTING

Inspections/Testing are required for all system installations/modifications and shall be witnessed by this department. A contractor shall make requests through Fire Administration a minimum of 72-hours in advance by calling (734) 941-8585. (Under 20 heads requires only a visual inspection)

- At time of inspection, ensure all ceiling, flooring, doors, windows, etc. are in place (except for rough inspections)
- Fire Alarms shall be "in-service" and monitored at time of testing.
- System shall be pre tested where applicable, prior to the fire department inspection.
- Hourly rates for Chief Code Official shall be applicable for Inspection/Testing of extra-large, special hazard or specialty systems requiring extended on-site time

PERMIT EXPIRATION

A permit remains valid as long as work is progressing and inspections/testing are requested and performed. A permit will expire if the authorized work is not commenced within six months of permit issuance or if the authorized work is suspended or abandoned for a period of six months after commencing work. Expired permits may be extended upon written request of the contractor for a period of 6 months with the approval of the Fire Prevention Chief Officer.
